

Flood Exposure Across Indian Districts, 2015–2024

Notes: Each district shaded by cumulative quarters with Rule A flood exposure, 2015Q2–2024Q4 (N = 666 GADM-matched districts; 631 districts in the regression analysis sample after RBI data availability restriction). Rule A matches EM-DAT flood events to districts by event name and date. State boundaries from GADM v4.1. Light grey = districts outside analysis sample (no GADM match).
